

## **Get Out and Play (Templeton's fun song)**

(Templeton)

The life of children are full of fun and endless joy  
The only war they have is sitting playing with their toys  
Kids have no worries except for dancing in the rain  
They got no problems and nothing to lose or gain

You'll see the world through a little child's wondering eyes  
Just look around and see how everything will come to life  
When you take a breath and let your daily routine fall away  
Open your eyes the world's your ballpark  
Get out and play

You can trust me man, you know I know what life's about  
I've been around the block a few times now no need to  
doubt  
Let's paint a picture of endless possibilities  
Take my hand, let go and follow me

You'll see the world through a little child's wondering eyes  
Just look around and see how everything will come to life  
When you take a breath and let your daily routine fall away  
Open your eyes the world's your ballpark  
Get out and play

(Greg)

You'll see the world through a little child's wondering eyes  
Just look around and see how everything will come to life  
When you take a breath and let your daily routine fall away  
Open your eyes the world's your ballpark

Get out and play
